Desiring to engage myself in the business as soon as I find out the details of the procedure in this country, worthy of knowing, I express my best thanks for the information you have been kind enough to give me so far, and I take here with the liberty of asking you for a statement of the sales which were made in your department during the term of the last 12 or 6 months containing the number of Bbls, weight, assay value, net value, value of gold, value of silver, price of $\text{\$}$ for which sold, and net proceeds.

The superintendent of the Assay office in this City has been kind enough to forward for me such a statement And that encourages me in asking your friendly advice in the same.

The object of suggesting this matter to your kind consideration is to obtain some idea of the business how and in what extent it is carried on here, after which I shall, having besides a long experience of the old country engage myself in the business.

Expressing in advance the best thanks for the kind
